Oak barrels of single malt whisky have been ageing for the last 5 years at Hellyers Road Distillery. A tour of the distillery provides a unique opportunity to see a wide range of premium spirits created in the largest distillery in Australia.

Since filling their first barrel in 1999, there are now over 2,600 casks of whisky maturing to produce a unique, "Tasmanian Style" premium whisky. Have a coffee and browse in the beautiful surrounds of the interpretation centre.
